

Report on CSR and sustainable Development upto August'24

The details of the Corporation's CSR activities for the period upto August '24

Health Care Services

The Corporation runs a Health Centre in the R&R Mankhurd, where various health care services are provided to the local public at highly subsidized cost. MRVC Health Centre at Lallubhai Compound, Mankhurd has been functional since 2013 in collaboration with "Doctors For You" (DFY). The services are provided at the health centre on a daily basis, like general OPD, dental OPD, Tuberculosis treatment, Immunization, Growth monitoring OPD, family planning and maternal & child health services. In the health centre at Lallubhai compound, specialized services i.e. physiotherapy and disability rehabilitation, Gynecology clinic, Eye clinic and Skin disease, Psychiatric, heart ailment treatment etc. are also provided. The OPD services are backed up by laboratory services and pharmacy. With the opening of this health centre, quality health services are easily accessible and affordable to residents of these PAP resettlement colonies and nearby slum areas. The Health Centre has been providing health care services to more than 7.5 lakh persons since its inception.

Various health care services undertaken during the period **April'24 to August '24** are detailed below:

Sr. No	Particulars	No.of Patients (April'24 to June'24	No.of Patients (July'24)to August'24	TOTAL
1	General OPD	4233	3467	7700
2	Maternal and child health	2032	1437	3469
3	Dental Clinic	846	555	1401

5	Special OPD	294	236	530
6	Under Five OPD	1688	1252	2940
7	TB Clinic	6905	3559	10464
8	Pathology	1099	803	1902
10	TOTAL	17822	11880	29702

Maternal and Child Health Care:

- **Antenatal care to Pregnant Women:**

Continuum of care approach is used to provide maternal and child health services at Health Care center which includes services for – maternal (Antenatal care for pregnant women), newborn care, child health services (immunization), etc. Total beneficiaries during this period were 17 ANC Patients. Family Planning counseling-90 Patients.

- **Immunization services:**

Immunization services are provided at the Centre and on field through outreach services. Routine Immunization is carried out at the center twice a week on Monday and Thursday, while outreach immunization on field is carried out on daily basis for under five years age of children. Vaccination is given against TB, Diphtheria, Pertussis, Tetanus, Hemophilus influenzae B, Hepatitis B, Polio, Rotavirus, Measles, Rubella.

- **Deworming against protozoal infection:-**

Soil Transmitted infections caused by a group of parasites such as worms/hookworm is among the most common infections in children. Those living in poverty are most vulnerable to this infection which can impair their nutrient intake, digestion and absorption causing infectious diarrhea. Deworming against protozoal infection is supplemented with immunization.

- **Vitamin A Supplementation to prevent blindness and infections in children:**

Vitamin A deficiency can cause visual impairment like night blindness and increase risk of infection in children. Vitamin A Deficiency affects about 190 million preschool age children (as per WHO e-library of Evidence for Nutrition Actions). Vitamin A is supplemented with the immunization.

- **Tuberculosis:**

Activities at the Centre for Tuberculosis.

1. Home environment: Importance of environment (such as space, ventilation and overcrowding) in the prevention of the spread of TB & the importance of adherence to treatment and completing the complete course of AKT is explained here by DOTS provider. They also emphasize the problem associated with irregular treatment.
2. Awareness among family members:
The family members are educated about mode of TB transmission, precaution to be taken to prevent the spread of disease and Importance of timely intake of medicines and development of drug resistance due to incomplete and inadequate treatment. Family members are also advised to visit the health center in case of symptoms such as Cough (>2Weeks), Fever and decreased appetite.

Nana Palkar Smruti Sadan –

Breast cancer ranks at number one, amongst all cancer cases in India. Biennial screening is recommended to enhance early detection of breast cancer. Lack of awareness, cost and availability of services is a hindering factor to undergo screening. This foundation provides free camps for awareness and screening of Breast Cancer to women with the help of a Breast Screening mobile van with high-quality portable breast cancer screening solutions at their doorstep to increase accessibility and encourage these women to get themselves tested.

The details of camps held by Nana Palkar Smruti Sadan with the support of MRVC from **April'24 to August'24** is as under:

Month	No. of camps	No. of patients
April	14	411
May	6	163
June	5	119
July	9	241
August	16	416
